

BATTARO

Your Offensive Security & Assurance Partner

About Battaro

Battaro™ is an elite cybersecurity partner focused on offensive security services with strategic GRC alignment. We empower organizations to build true resilience through real-world testing, technical assurance, and compliance-centric delivery.

Our experts simulate modern threats with precision—identifying vulnerabilities, reducing risk, and enabling business continuity across complex environments.

Our Mission

We enable organizations to operate securely with confidence through unmatched offensive security.

“Breach the Surface. Uncover the Truth. Secure What Matters”

Why Battaro?

- Region's top offensive security experts
- Certified red teamers & GRC professionals
- Over a dozen world-class certifications:
 - OSEP, OSCP, OSCE, eCPTX, GPEN, GWAPT, CRTE, CRT0, GRTP, GAWN
 - CISA, CRISC
- Locally licensed in Saudi Arabia
- Business-aligned security outcomes – not just technical testing
- Clear, prioritized, actionable findings and recommendations
 - Tailored to your risk, business impact, and compliance requirements

Core Services

Penetration Testing

Simulate real-world attacks across infrastructure, networks, cloud, and applications.

Code Review

In-depth analysis of source code to detect insecure practices and logic flaws.

Red Teaming

Emulate APTs to assess detection, response, and resilience capabilities.

GRC

Build governance, risk, and compliance frameworks that align security with business priorities and deliver audit-ready resilience.

Who We Serve

- Tech-forward enterprises
- Regulated financial institutions
- Critical infrastructure providers
- Government agencies
- Security-mature SMEs
